A-M & R FACIAL RECOVERY

DESCRIPTION: A peptide rich serum which helps reorganize and build the dermal matrix of the skin. It also diminishes established fine lines and prevents future lines.

BENEFITS:

- Increases healing potential and tissue regeneration
- Aids in increasing skin thickness through the stimulation of collagen I & IV and elastin in the dermal matrix
- Relaxes muscle contractions which lead to fine lines and wrinkles
- Enhances the effects of resurfacers, peels and laser treatments
- Increases dermal and epidermal hydration

DERMAQUEST™ SKIN THERAPY PERFORMANCE INGREDIENTS:

- **Argireline (Acetyl Hexapeptide-3)** – A peptide chain which inhibits the release of the neural signal protein catecholamine, thus preventing muscle contractions which, over time, lead to wrinkles.
- **Matrixyl (Palmitoyl Pentapeptide-4)** – A peptide chain which stimulates the development of the dermal layer of the skin.
- **Rigin (Palmitoyl Tetrapeptide-7)** – A peptide chain which suppresses the chemical messengers that trigger the body's acute inflammatory response. As we age, significant levels of the chemical messenger IL6 appear in the blood plasma, even if there is no inflammatory stimulus. The reduction in IL6 therefore increases healing potential and tissue regeneration.
- **Sodium Hyaluronate** – An essential dermal hydrator which plumps and smoothes the skin.
- **Actifirm TS** – This ingredient complex is a blend of Centella Asiatica Extract and Coneflower Extract which stimulate fibroblasts and form additional collagen, elastin, and hyaluronic acid, thus increasing firmness and reducing fine lines and wrinkles.

DIRECTIONS: Apply product to fingertips and gently massage into the skin AM & PM. Continual use will maintain and further improve results.

INGREDIENTS: Water, Glycerin (and) Butylene Glycol (and) Palmitoyl Pentapeptide-4 (Matrixyl), Acetyl Hexapeptide-3 (Argireline), Palmitoyl Oligopeptide-Palmitoyl Tetrapeptide-7 (Rigin), Collagen Activating Complex, Sodium Hyaluronate, Centella Asiatica Extract (and) Echinacea Purpurea Extract, Xanthan Gum and Chondrus Crispus, Imperata Cylindrica Root Extract, Carbomer, PEG-8 Dimethicone, Cyclomethicone, Capryly Glycol, Caprylic/Capric Triglyceride-Linoleic Acid (and) Glycine Soja Sterols-Phospholipids, Glucose, Phenoxyethanol, Steareth-20, Olea Europaea (Olive) Leaf Extract, Retinyl Palmitate (Vitamin A), Polysorbate-20

pH: 6.25

PRODUCT SIZE: Home care - 1 FL OZ / 29.6mL Pump
