A & M EYE RECOVERY

DESCRIPTION: A peptide and moisture-rich product which helps reorganize the dermal matrix of the skin and soften established fine lines and wrinkles. Dark under eye circles and puffiness are also targeted and diminished.

BENEFITS:

- Tightens and firms the delicate eye area
- Diminishes the appearance of fine lines and wrinkles
- Restores the dermal matrix
- Eliminates excess fluids to relieve puffiness of surrounding tissue
- Minimizes inflammation to prevent tissue damage
- Reduces dark circles

DERMAQUEST™ SKIN THERAPY PERFORMANCE INGREDIENTS:

- **Argireline (Acetyl Hexapeptide-3)** – A peptide chain which inhibits the release of the neural signal protein catecholamine, thus preventing muscle contractions which, over time, lead to wrinkles.
- **Matrixyl (Palmitoyl Pentapeptide-4)** – A peptide chain which stimulates the development of the dermal layer of the skin.
- **Rigin (Palmitoyl Tetrapeptide-7)** – A peptide chain which suppresses the chemical messengers that trigger the body's acute inflammatory response. As we age, significant levels of the chemical messenger IL6 appear in the blood plasma, even if there is no inflammatory stimulus. The reduction in IL6 therefore increases healing potential and tissue regeneration.
- **Eyeliss and Regu-Age** – Peptides which work synergistically to noticeably reduce puffiness and dark circles under the eyes by increasing circulation and lymphatic drainage, strengthening capillaries and increasing firmness.
- **MDI Complex** – A marine enzyme which inhibits collagenase. It also mimics glycosaminoglycans, thus increasing the depth of hydration, moisture retention and skin firmness. In the eye area it especially lightens dark circles and decreases puffiness.
- **Actifirm TS** – This ingredient complex is a blend of Centella Asiatica Extract and Coneflower Extract which stimulates fibroblasts and forms additional collagen, elastin, and hyaluronic acid, thus increasing firmness and reducing fine lines and wrinkles.
- **ASC III (Dipalmitoyl Hydroxyproline)** – An amino acid which increases collagen III in the skin and also scavenges free radicals.
- **Sodium Hyaluronate** – An essential dermal hydrator which plumps and smoothes the skin.

DIRECTIONS: Apply sparingly to fingertips and gently smooth around the eye area. Do not apply on the eyelid or allow into the eye.

INGREDIENTS: Water, Glycerin (and) Butylene Glycol (and) Palmitoyl pentapeptide-4, Acetyl Hexapeptide-3, Hesperidin Methyl Chalcone-Dipeptide-2-Palmitoyl Tetrapeptide-3 (Eyeliss), Hydrolyzed Rice Bran Protein (and) Soy Peptides (and) Oxido Reductases (Regu-Age), Palmitoyl Tetrapeptide-7, Collagen Activating Complex, MDI Complex, Sodium Hyaluronate, Centella Asiatica Extract and Echinacea Purpurea Extract, Xanthan Gum (and) Chondrus Crispus, Imperata Cylindrica Root Extract, Carbomer, PEG-8 Dimethicone, Cyclomethicone, Caprylyl Glycol, Caprylic/Capric Triglyceride-Linoleic Acid (and) Glycine Soja Sterols-Phospholipids, Glucose, Phenoxyethanol, Steareth-20, Olea Europea (Olive) Leaf Extract, Retinyl Palmitate (Vitamin A), Polysorbate-20

pH: 6.25

PRODUCT SIZE: Home care - 0.5 FL OZ / 14.8mL Pump
