PEPTIDE MOBILIZER

DESCRIPTION: Our best selling Age Management product which combines the highest levels of peptides which support each other in plumping, smoothing and reversing the signs of aging.

BENEFITS:

- Increases healing potential and tissue regeneration
- Aids in increasing skin thickness through the stimulation of collagen I & IV, fibronectin, and glycosaminoglycans in the dermal matrix
- Relaxes muscle contractions which lead to fine lines and wrinkles
- Increases dermal and epidermal hydration
- Enhances the effects of resurfacers, peels and laser treatments

DERMAQUEST™ SKIN THERAPY PERFORMANCE INGREDIENTS:

- **Argireline (Acetyl Hexapeptide-3)** – A peptide chain which inhibits the release of the neural signal protein catecholamine, thus preventing muscle contractions which, over time, lead to wrinkles.
- **Matrixyl (Palmitoyl Pentapeptide-4)** – A peptide chain which stimulates the development of the dermal layer of the skin.
- **Rigin (Palmitoyl Tetrapeptide-7)** – A peptide chain which suppresses the chemical messengers that trigger the body's acute inflammatory response. As we age, significant levels of the chemical messenger IL6 appear in the blood plasma, even if there is no inflammatory stimulus. The reduction in IL6 therefore increases healing potential and tissue regeneration.
- **Eyeliss and Regu-Age** – Peptides which work synergistically to noticeably reduce puffiness and dark circles under the eyes by increasing circulation and lymphatic drainage, strengthening capillaries and increasing firmness.
- **Sodium Hyaluronate** – An essential dermal hydrator which plumps and smoothes the skin.
- **Actifirm TS** – This ingredient complex is a blend of Centella Asiatica Extract and Coneflower Extract which stimulate fibroblasts and form additional collagen, elastin, and hyaluronic acid, thus increasing firmness and reducing fine lines and wrinkles.

DIRECTIONS: Apply to cleansed skin and eye area AM and PM in a home care regimen for the rejuvenation of mature skin. Full benefits will be noted in 4-12 weeks and continual use will maintain and further improve results.

INGREDIENTS: Water, Acetyl Hexapeptide-3 (Argireline), Glycerin-Butylene Glycol -Palmitoyl Pentapeptide-4 (Matrixyl), Oxido Reductases-Soy Peptides-Hydrolyzed Rice Bran Extract (Regu-Age), Palmitoyl Oligopeptide-Palmitoyl Tetrapeptide-7 (Rigin), Hesperidin Methyl Chalcome-Steareth-20-Dipeptide-2-Palmitoyl Tetrapeptide-7 (Eyeliss), Sodium Hyaluronate, Green Tea Extract, Hydroxyethylcellulose, Butylene Glycol (and) Centella Asiatica Extract (and) Echinacea Purpurea Extract (Actifirm TS), Meadowsweet and Hydrocotyl Extract (and) Amino Acids, Diazolidinyl Imperata Cylindrica Extract-Water-Glycerin-PEG 8-Carbomer, Hydroxyethylcellulose

pH: 5.00

PRODUCT SIZE: Home care - 1 FL OZ / 29.6 mL Pump
